moda

Add a touch of interest to your next project with an updated palette of our popular cross weave wovens. These unique fabrics are almost solid, but achieve a subtle textured look created by the variation in thread colors used. Find just the right accent or background fabric in this assortment of rainbow brights, fashion colors and neutrals with a more rustic, linen look. Try mixing Cross Weaves with your favorite Bella Solids for a new twist on our 12 Pack Quilt Projects!
