moda FABRICS + SUPPLIES

KIT31130 Farmhouse Star 60"x60"

**Simplicity.** The Urban Chiks know that getting the feel of “modern farmhouse” style is all about the right mix of scale, elements and color. Black and Cream. It’s the starting point for great design – classic and modern, retro and urban. Over-sized polka dots and text prints, large-scale roses and a flying geese stripe that can be used for quilts, pillows and accessories that will always feel comfortable and fresh.

### What is the cotton slub?

The slub is an incidental extra-fat lump in the cotton yarn. It used to be caused by poor control of the manufacturing process, and imperfections in the fibre cleaning process. The intention was to create a smooth, even yarn, but sometimes slubs made the yarn a little uneven, but created a unique texture.
