ZC OPQP On The Plus Side 81" x 81"

Black and white is a classic combination that you can never go wrong with. With its cooler hues of charcoal and chalk, FILIGREE adds the warmth of sunny yellow, accents of orange and green, and finishes with sand and gray neutrals.

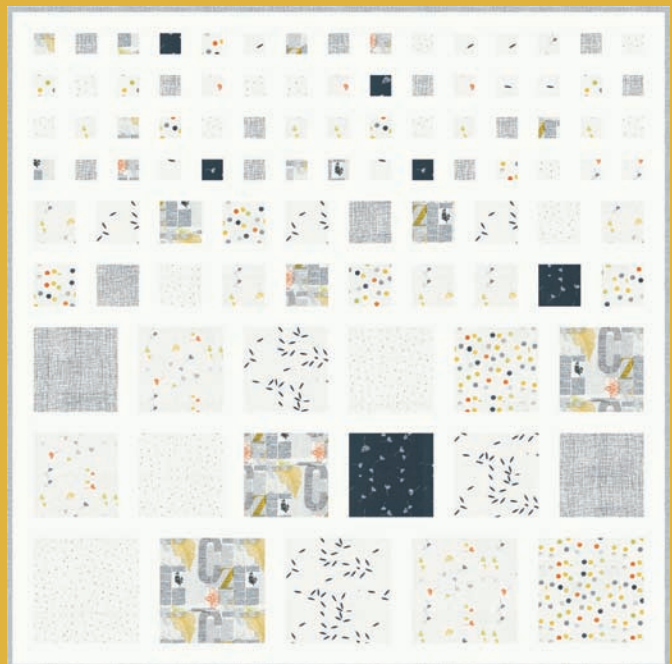

Newspaper collages with striking, eye-catching elements set the tone of FILIGREE. Calm coordinates balance the large-scale collage print in the style of Scandinavian minimalism.

New Spotted shades should not be missed in this collection either. Make sure you stock up on these - you'll be using them over and over again!
